

GenericSensor

```
graph BT; ArduinoVoltageSensor --> VoltageSensor; VoltageSensor --> GenericSensor;
```

The diagram illustrates a class hierarchy with three levels. At the top is the 'GenericSensor' class, represented by a white box with a black border. Below it is the 'VoltageSensor' class, also a white box with a black border. At the bottom is the 'ArduinoVoltageSensor' class, represented by a gray box with a black border. Two blue arrows point upwards, indicating inheritance: one from 'VoltageSensor' to 'GenericSensor', and another from 'ArduinoVoltageSensor' to 'VoltageSensor'.
